- Legal

The JM Longbridge Group is a specialist recruitment business focusing on Technology, Business Transformation, Big Data, Finance and Legal disciplines.

We provide permanent, interim and contractor solutions and are respected and regarded as an industry leader in recruitment research and execution. We can work with you as an external consulting partner supporting specialist recruitment projects and/or as an on-site recruitment partner. We are proud of the unique experience we have of developing near-shore/off-shore solutions across IT, Finance and Operations on three continents.

Our approach

The world of work is changing at a pace we have not experienced for many years. There's much uncertainty amongst employers and a shortage of talent that is becoming acute. Once you add into this mix the changing shape of many professionals' expectations with regards to their careers and work, it comes as no surprise that organisations are looking towards their recruitment suppliers to step up and become true partners.

This is where The JM Longbridge Group excel. We are prepared to shoulder the challenges you face. Not only will we work methodically and diligently to secure the talent that you need, but we will also offer advice and support on the market, alongside hybrid/flexible working that will impact your recruitment program.

As recruiters we have unique experience of developing niche near-shore and off-shore centres of excellence in finance, operations, and technology. This specialism has developed over the last 25 years, and we are proud to have partnered with a number of FTSE 250 organisations for which we have delivered rapidly scalable solutions across the UK, Europe, US and Asia.

Whether it is a strategic hire, a "niche knowledge" contractor or a volume-based requirement, our deeply experienced leadership will partner with you and enable the creation of an efficient extension of your own capabilities, enabling you to meet the staffing demands created by an every-changing and challenging business landscape.
